1. SFY '21 - T-bill included \$500k in one-time funds.
2. SFY '22 - Public Transit Program redesigned the Go Vermont Program and incorporated MTI into its budget to sustain program. Began using \$500k in FHWA funds rather than State for most grant activity.
3. SFY '23 – tr-bill added \$1.5m into PT budget for Microtransit projects. Worked with Public Transit Providers to use these funds for the 20% non-federal match for 5 microtransit pilots (3-year pilot period). This was over and above the regular MTI grant program.
4. SFY '24 – further drawdown the \$1.5m for microtransit pilots, and have another \$500k budgeted for next round of MTI applications (due Oct. 2023).
